

## Technical Assistant, Research Technician (m/f)

CALYXHA Biotechnologies GmbH is a pre-clinical stage product development company. Our company culture is collaborative with a strong commitment to excellence.

The Discovery and Research team is looking for a Technical assistant/Research Technician (m/f) with experience in:

- Cell culture techniques
- Cell biology techniques, particularly Western-blot, ELISA, flow cytometry and qPCR
- Basic data analysis

Your responsibilities:

- Planning and execution of cell culture-based assays
- Perform cell biology experiments with the techniques mentioned above
- Analysis and documentation of the results
- Taking responsibility for all lab-related tasks, such as lab organisation, material flow, ordering, decontamination, etc

Your ideal qualifications:

- Successfully completed apprenticeship (BTA/CTA/MTA), BA or MA studies in the field of biological sciences/in vitro pharmacology or related subjects
- Good computer skill/knowledge on MacOS or MS Word and Excel is a prerequisite for your daily work

Our offer:

- A permanent position within a vigorous and exciting professional environment promoted by an open culture and a spirit of community
- Training and research opportunities in cutting-edge techniques
- A diverse, international workforce with a dynamic working environment that fosters creativity, innovations and teamwork

The monthly salary amounts to 2.600 EUR gross income, based on fulltime (40 hours per week). A higher salary is possible depending on the experience and fit of the candidate.

If you are interested and would like to be part of a young and exciting company, please send your application (incl. cover letter, CV, references) to Dr. Marco Sealey (contact@calyxha.com) no later than **31 of July, 2020**.
